1. Administering State Agency: Division of Oil, Gas and Mining 355 West North Temple, Suite 350 Salt Lake City, Utah 84180-1203	2. State Application Identifier Numbers: (assigned by State Clearinghouse) 3. Approximate date project will start: Existing operation (currently active)
4. Area-wide clearinghouse(s) receiving State Action: Wilbur R. Jeffries, Executive Director Wasatch Front Regional Council 420 West 1500 South, Suite 200 Bountiful, Utah 84010	
5. Type of action: <input type="checkbox"/> Lease <input checked="" type="checkbox"/> Permit <input type="checkbox"/> License <input type="checkbox"/> Land Acquisition <input type="checkbox"/> Land Sale <input type="checkbox"/> Land Exchange <input type="checkbox"/> Other _____	
6. Title of proposed action: Tentative approval of Morton International, Inc., Morton Salt Division's Mining and Reclamation Plan permit application for their existing Grantsville Operations (DOGM file M/045/037).	
7. Description: During Operations This is an existing salt evaporation operation previously owned by North American Salt Company. Salt is scraped from the ponds using a harvester. The salt is conveyed into a trailer towed behind the harvester. The solar evaporative salt is hauled to the wash plant where it is washed using lake water. The salt is conveyed to a double-wing stacker and stockpiled for storage. Salt is conveyed to the mill by front end loader and conveyor. In the mill, the salt is dried, graded and bagged, or processed into one of several product lines. After Operations All processing facilities, buildings/structures will be demolished and the debris removed from the site. Areas indicated on the Reclamation Site Map will be ripped and turned after the structures are removed (approximately 26.16 acres). Areas in and around the main processing facilities would be backfilled and graded as needed. Approximately 15.49 acres will be seeded using a seedmix recommended by the Division. Dikes in the crystallizer will be smoothed down. Dikes to be leveled are indicated on enclosure #6 Dike Leveling Map. There will be some grading of material back into the canals. The remaining canals will be left to erode naturally. Any residual stockpiled material will be removed and sold. The road to Stansbury Island will not be affected by reclamation. The outer dike will remain for flood control if so desired by the County or State at the time of reclamation.	
8. Land affected (site location map required) (indicate county) Portions of section 19 T1N, R5W; sections 24, 25, 26, 32, 33, 34, 35, T1N, R6W; sections 16, 19, 20, 21, T1S, R5W; sections 1, 2, 3, 10, 11, 12, 13, 14, 15, T1S, R7W; and sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, T1S, R6W, SLBM, Tooele County.	

9. Has the local government(s) been contacted?

This notice being sent and publicized.

10. Possible significant impacts likely to occur:

None anticipated

11. Name and phone number of district representative from your agency near project site, if applicable:

N/A

12. For further information, contact:

D. Wayne Hedberg, Minerals Regulatory Program

Phone: (801) 538-5340

13. Signature and title of authorized officer:

D. Wayne Hedberg

Date: 2/1/95

3: rdcc
